Unlock reliability with NYE Basic Panel PC built to last

NYE industrial Panel PC offers the customer the flexibility to choose the application solution that best suits their needs. From the Windows-only version with the customer's freedom to install preferred applications to versions that add OMRON software packages for vision systems, QR code reading or HMI functionality. NYE is designed with durable hardware and software components for long-term use, applying high-quality components and innovative mechanical design, in addition to OMRON's highest production standards.

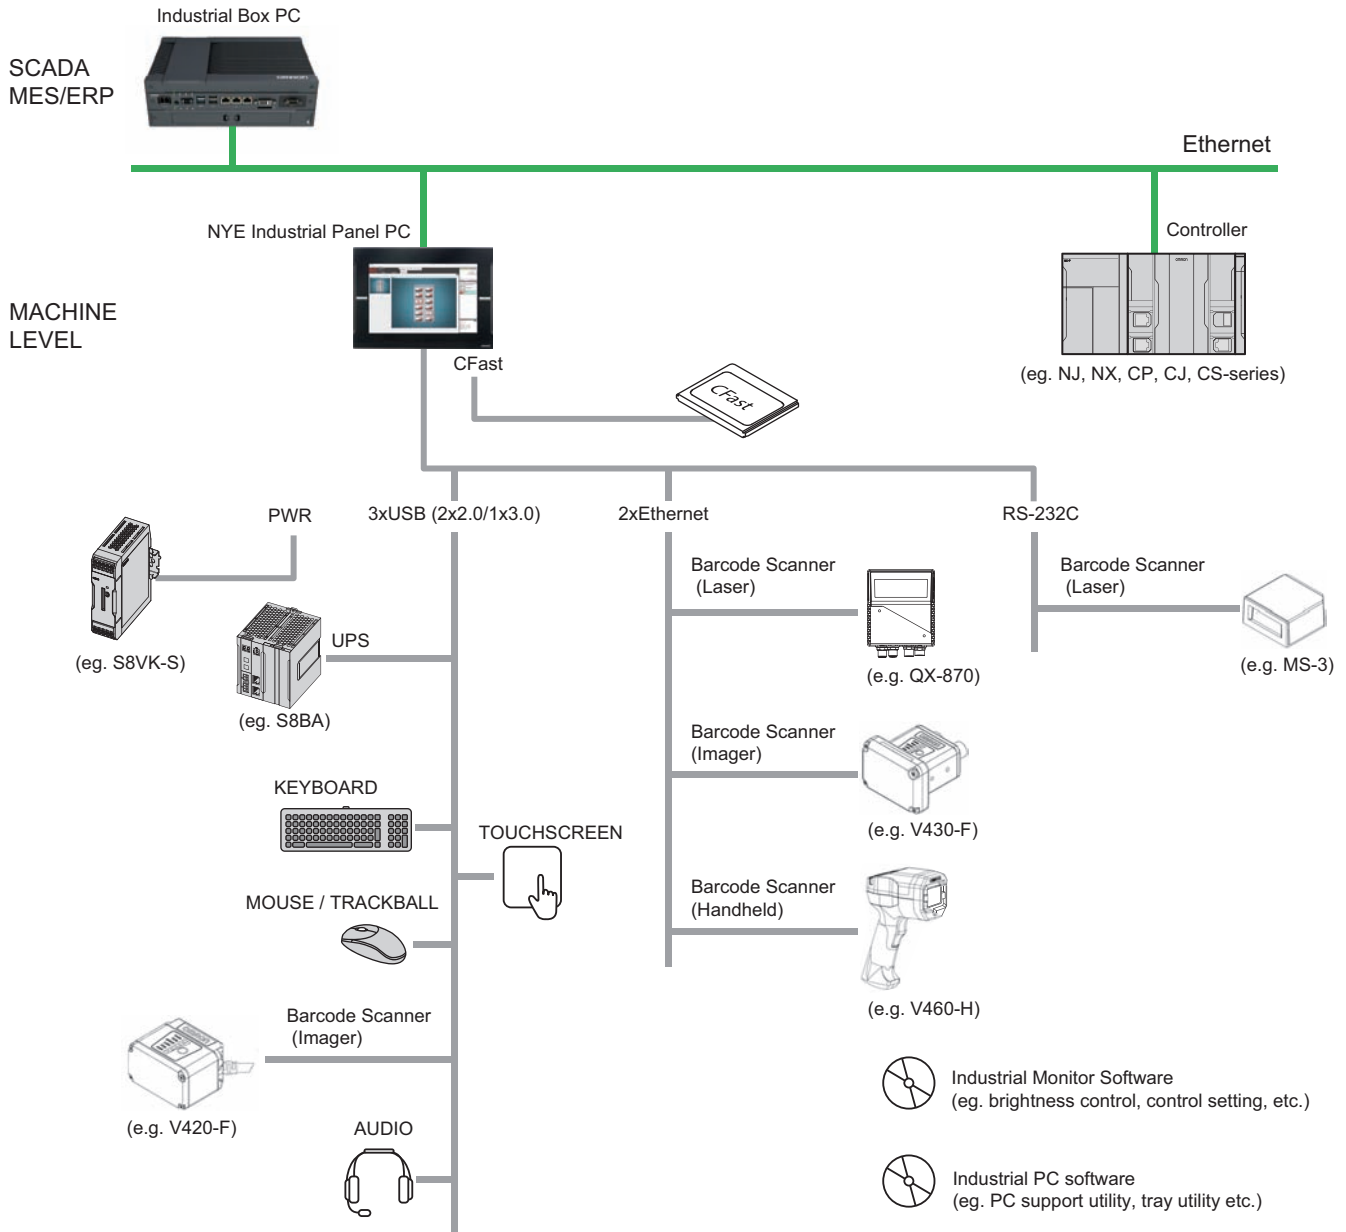

Features

- Industrial grade Intel Atom® Processor
- Windows 10 IoT 2021 Enterprise LTSC
- Compact design without fan
- Gigabit Ethernet ports to segregate access to your IT and OT systems
- 3 USB ports. (2 x USB 2.0 + 1 x USB 3.0)
- RS-232 Port
- CFast Card Slot
- Wide screen in all models: 7, 9, 12, and 15 inches
- More than 16 million color display for all models and 1280 x 800 high resolution display for the 12 and 15-inch models
- Resistive Touchscreen
- Housing with robust front, IP65 oil-proof type, UL Type 4X, rear side IP 20

Installed Support Software

Item	Specifications
Industrial PC Support Utility	The Industrial PC Support Utility is a software utility to assist in diagnosing and resolving problems of the Industrial PC. It is pre-installed on the Industrial Panel PC.
Industrial PC Tray Utility *1 *2	The Industrial PC Tray Utility is a software utility that provides information about the current state of the Industrial PC, its related devices, and associated software. It is pre-installed on the Industrial Panel PC.

*1. Included in the Industrial PC Support Utility installer.

*2. Together with the Industrial PC Tray Utility also Microsoft .NET Framework 4.6 is installed.

Automation Software Sysmac Studio

Product name	Specifications	Cat. No.
Automation Software Sysmac Studio	The Sysmac Studio is the software that provides an integrated environment for setting, programming, debugging and maintenance of machine automation controllers including the NJ/NX-series CPU Units, NY-series Industrial PC, EtherCAT [®] Slave, and the HMI.	P138

FHV7 Software

Product name	Specifications	Cat. No.
FHV7 Software *1	FHV7 Software is the software tool to setup OMRON FHV7 vision systems. Combine image processing application with data gathering. You can build sophisticated image inspection and data collection.	Q264

*1. FHV7 Software is installed only on NYE versions. NYE□□-□□F□□

Soft-NA

Product name	Specifications	Cat. No.
Soft-NA *1	Soft NA will allow users to run NA5 HMI applications on an IPC. The Soft-NA is software that displays information on FA manufacturing sites while providing safety, reliability, and maintainability as an industrial display on which operations can be performed as necessary.	V457

*1. Soft-NA Software is installed only on NYE versions. NYE□□-□□N□□

*1. There may be some defective pixels in the display. This is not a fault as long as the number of defective light and dark pixels fall within the following standard range: light and dark pixels 10 or less. There must not be 3 adjacent light/dark pixels.

*2. This is the estimated time before brightness is reduced by half at room temperature.

The life expectancy is drastically shortened if used at high temperatures.

*3. If the brightness is set to very low, it causes flickering, or the screen will be too dark to use.

Inspection systems FHV7

High-speed, high-accuracy inspection and measurement. The new FHV7-series Smart Camera combined with illumination and image processing functionality for advanced vision inspections. Thanks to multi-color light and a 12-megapixel high-resolution camera, only a single FHV7-series Smart Camera is required for achieve the industry's highest level of precision in vision inspections on a high-mix production line.

Identification systems F4x0-F

Traditional image inspections require one or more dedicated cameras to be paired with a code reader. Omron's F430-F/F420-F Series Smart Camera bundles all this functionality into a single device, dramatically simplifying application design. The single camera solution also reduces the initial investment, cuts down on wiring work and keeps maintenance costs to a minimum.

S8BA-series UPS

The OMRON S8BA UPS protects the Industrial PC from power failures, voltage variations and instantaneous voltage drops.

Barcode Readers V4x0-F Traceability Solutions

Component and product traceability are common requirements for today's busy factories and assembly plants. Omron 2D barcode readers feature industry-leading technology for decoding 2D symbols and linear barcodes based on Omron's proven image processing and decoding algorithm development, offering unrivalled performance for reliably decoding challenging codes and direct part marks (DPM).

Industrial Handheld DPM Reader V460-H

In industry, having a mixture of both low-contrast Direct Part Marks and high-contrast printed barcodes is common. With the V460, there's no need to purchase multiple units for different size barcodes, surfaces or types, as the reader automatically adjusts to decode the direct part mark or label presented. It's never been easier to improve your traceability solution.

Terms and Conditions Agreement

Read and understand this catalog.

Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments.

Warranties.

(a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied.

(b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE.

Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.

See <http://www.omron.com/global/> or contact your Omron representative for published information.

Limitation on Liability; Etc.

OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY.

Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.

Suitability of Use.

Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT(S) IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

Programmable Products.

Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.

Performance Data.

Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.

Change in Specifications.

Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.

Errors and Omissions.

Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.
