

Modification notice of addition of UKCA mark on Industrial Automation products and its instruction manuals.

Effective Date

Design changes will be implemented from June 2021.
We will sequentially produce the changed products at our factory.

Applicable Model

All IAB products that have obtained the CE mark

Reason for change

To respond to UKCA (United Kingdom Conformity Assessed)

The UK CA mark is a new system that will replace the EU compliant CE mark due to the UK's withdrawal from the EU.

The UKCA mark will be required for distribution in the UK (England, Wales, Scotland) in the future.

The enforcement start date is January 1, 2023.

< CE mark >

< UKCA mark >

Change of products specification

Unnecessary

Example of changing the notation by adding a UKCA symbol

Before the change	After the change
<p>① Layout change example in label</p> 	<p><i>Change other mark position to secure display area for UKCA</i></p> 
<p>① Layout change example in supplemental</p> 	<p><i>Change label size and other mark position to secure display area for UKCA</i></p> 

③ Example of layout change and resizing of label on packaging box

Change label size and other mark position to secure display area for UKCA
