

Dear Customers,

UKCA compliance information

Our products are also complying UKCA, you will find the status of our products on our global website:

[List of Products to be compliant with UKCA Mark | OMRON Industrial Automation](#)

This list will be continually updated.

Furthermore, we are follow-up the relevant regulations of the UK government and our products will keep the timeline of these regulation(s).

● **Effective Date**

Design changes will be implemented sequentially from June 2021.

We will sequentially produce the changed products at our factory.

● **Applicable Model**

All IAB products that have obtained the CE mark

● **Reason for change**

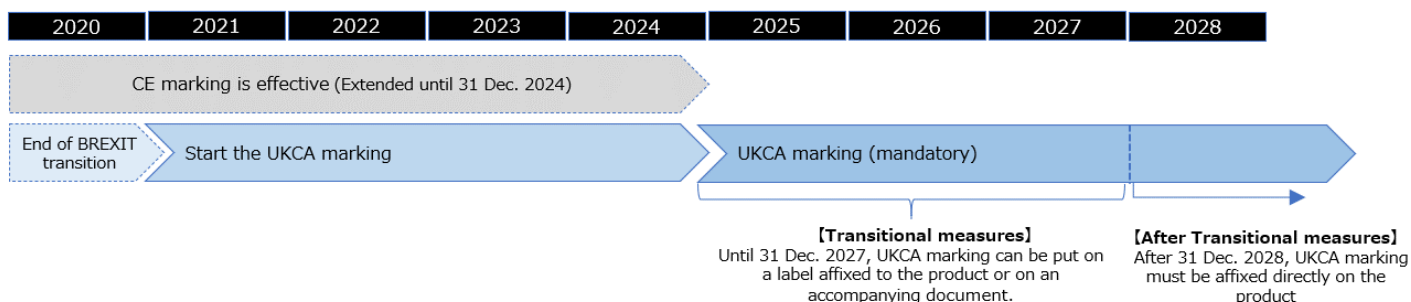

To respond to UKCA (United Kingdom Conformity Assessed).

The UKCA mark is a new system that will replace the EU compliant CE mark due to the UK's withdrawal from the EU.

The UKCA mark will be required for distribution in the UK (England, Wales, Scotland) in the future.

The enforcement start date is 01 January 2025.

Below the latest timeline from the UK government:

Kind regards,
