## Safety Light Curtain F3SG-SR

### The optional bracket (F39-LSGF) is sold separately

Thank you for your continued use of Omron products.

By request of customers, the mounting brackets are no longer included in the package manufactured in and after April 2020.

Now you can choose optional brackets to suit your application.

When ordering, please note that this is not described in the existing catalog (Cat. No. F105-E1-04).

### Accessories (Sold separately)

For fixed mounting

| Application                                                                                                                                                                                                                           | Appearance                                                                         | Type                                       | Model    |
